Note to contributors

- No manuscripts submitted shall have been or will be published elsewhere.
 - Papers for publication should be submitted in duplicate to one of the Editors.
 - Editors will initially screen submissions, prior to reviewing, and inform authors quickly if the paper appears unsuitable for this journal.
 - Manuscripts should be typed on one side of the paper only, double-spaced throughout with wide margins. The IBM diskette with Microsoft Word version of manuscript should be included if possible.
 - Tables and Figures should be numbered consecutively and placed on separate sheets, with an indication in the text as to their appropriate placement.
 - The manuscript should begin with an abstract and keywords. The abstract should not contain any formulae or references. Its purpose is to summarize clearly the principal conclusion of the paper.
 - The paper should be subdivided into sections and subsections if necessary. Main headings should designate major sections, side headings should designate minor sections.
 - References must be listed alphabetically by the surname of the first author followed by the year, title, journal name. Volume, pages for journal references; and author(s), year, title, city and publisher for the book references.
 - All references should be indicated in the manuscript by the author's surname followed by the year of publication, e.g. (Hellwig 1968). Where the references include three or more authors, the form (Hellwig et al. 1968) should be used.
 - Footnotes should be avoided. Parentheses should be used in their place.
 - No maximum length for the paper is prescribed; however authors should write concisely.
